ADDITIONAL INFORMATION

The following information was updated in the presentence investigation report.

Page 17, Paragraphs 75 to 79: (formerly paragraph 75 only):

Pursuant to USSG §2D1.1, Notes to Drug Quantity Table (A) and commentary 1, unless otherwise specified, the weight of a controlled substance set forth in the table refers to the entire weight of any mixture or substance containing a detectable amount of the controlled substance. If the mixture cannot be readily separated, the Court may use any reasonable method to approximate the weight of the mixture or substance to be counted.

This officer believes the gross weight is excessive and a net weight would be more appropriate. However, as there is no specific calculation or formula to obtain a net weight, this officer reasonably believes a reduction of 50 percent could be used to obtain an average net weight. This was updated in the presentence report; however, the base offense level remained 34.
